

TWH-NRH - IMPERIAL SIZE RATCHET HEADS

TWH120NRH3.1/2

Choice of standard imperial sizes

Easily fitted to TWH-N drive units

Strong steel construction

The TWH-NRH range of imperial hexagon ratchet heads, suitable for use with TWH-N series low profile hydraulic torque wrenches (see pages 79-80), provide exceptional flexibility with across flats (AF) sizes from 1 1/16" to 6 7/8" available as standard. All models feature extremely low profile design combined with a minimum nose radius (R) that enables fitment in very confined limited access places. For even greater versatility a comprehensive range of imperial hexagon reducer bushes (see page 84) and square drive conversion kits (see page 83) to suit TWH-NRH imperial ratchet heads are also available. Non standard and special design ratchet heads can be made to order.

IMPERIAL RATCHET HEAD SELECTION TABLE:
